A guide on how to get 6 Magic Plants of Isola and what their effects are.

## Each Magic Plant and their effects

### Four-Petal Maple: The Magic Tree of Fragrance

#### Tier: 1

*"The intoxicating fragrance from this plant is universally pleasant and exotic. The wonderful aroma influences visitors in the nursery and attracts rare insects. This effect is automatic and permanent. The plant has been repotted in a golden pot and moved to your nursery."*

**Effects: Slightly attracts more customers and rarer Insects.**

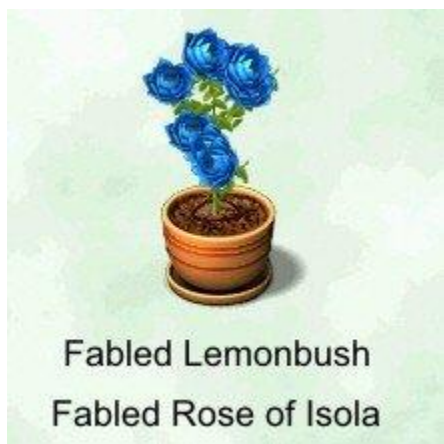

### Rosaceae Fern: The Rose of Joy

#### Tier: 2

*"This breathtaking plant bears roses so beautiful that people come from miles to behold its wonder. Your nursery will always have a crowd from now on. This effect is automatic and permanent. The plant has been repotted in a golden pot and moved to your nursery."*

**Effects: Same as the Four-Petal Maple excluding insects but slightly stronger.**

### **Fabled Lemonbush: The Fabled Rose of Isola**

#### **Tier: 3**

*"Until now this plant existed only in myth. This rare rose will surely bring you great fame and riches. This effect is automatic and permanent. The plant has been repotted in a golden pot and moved to your nursery."*

**Effects: None, but the plant itself sells for a ridiculous amount of money.**

### **Mela Rare Oak: The Fruit of Life**

#### **Tier: 3**

*"The presence of this magic plant makes your other plants robust, resistant to infestation, and bloom vigorously. This effect is automatic and permanent. The plant has been repotted in a golden pot and moved to your nursery."*

### **Nox Orchid: The Flower of Knowledge**

**Effects: Reprices every plant to a higher price where customers will quickly buy them."**

**The Four-Petal Maple** is a **Tier 1 Plant** and is most likely going to be the first magic plant you discover and is the easiest to find and care for and is a decent moneymaker for the early game.

You can find this seed easily in the shop if a Maple seed is being sold, as its most likely a **Four-Petal Maple** seed.

Same with the **Four-Petal Maple**, you can also find this seed if it's being sold at the shop, although it's not as common as the **Four-Petal Maple** is.
